**Qualified Business Income Deduction (if you have a profit)**

You may be able to take a tax deduction of 20% of the profit on your rental or 20% of your taxable income, whichever is lower. In order to claim this deduction, you must treat the rental as a business. MANY rentals do not have a profit so this would not help. If you would like more information about this, check this box and we will make sure to discuss this with you.
